The following is an examiner's statement of reasons for allowance: The amendments of 1/6/05 render the claims allowable over the prior art of record. The terms "steeply" and "slightly" are broad and relative terms but do indicate that one angle of inclination is greater than the other. Also, the directing of the cord onto the drum is interpreted as meaning that the steeply inclined surface is the first surface on the drum to receive the cord. This avoids a reading of Buck et al wherein 23 could be the "steeply inclined" surface and 15 and 25 could be the lesser inclined surfaces, all of which are "adjacent" to each other.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
